Langley Research Center Safety Alert

SA-11-91

Date: July 19, 1991

TO: Distribution

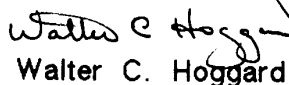

FROM: 429/Chief, Systems Safety, Quality and Reliability
Division

SUBJECT: W. Durand Rd. Temporary Parking

As a result of construction of an addition for the Light Alloy Laboratory at 2 W. Moffett Rd., it is necessary to modify the parking pattern on W. Durand Rd. between Ames Road and W. Walcott Rd. for a period of approximately 18 months. On July 25, 1991, new temporary angle parking will be available on the south side of W. Durand Rd. (opposite the Technical Library), but there will be no parking on the north side of W. Durand Rd., except for one handicapped parking space.

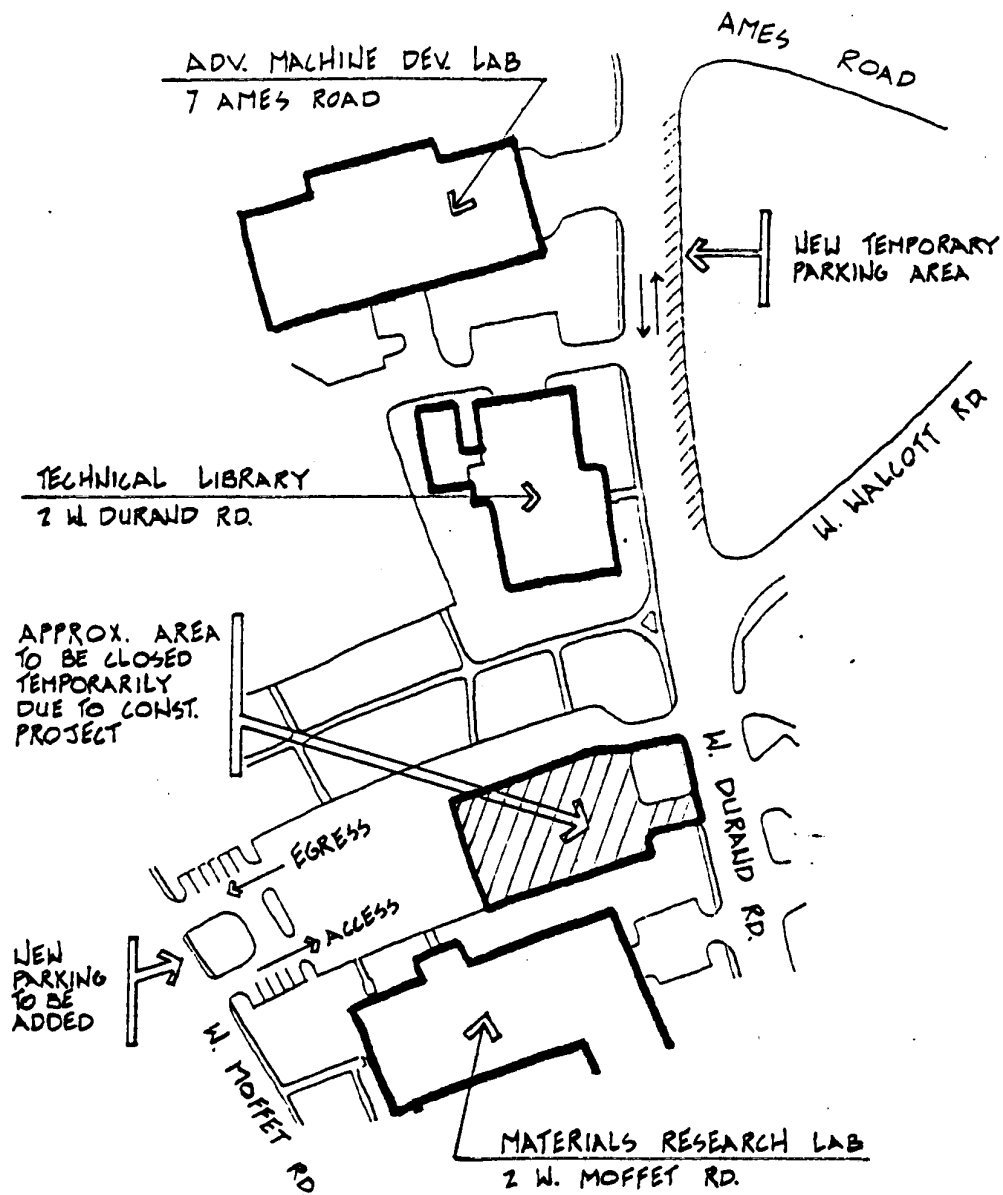

New parking will also be added in the Materials Research Lab parking lot with access and egress to W. Moffett Rd. permitted, i.e., the existing planters will be removed during this period from the north end of the lot. See the map on the reverse side of this Alert for details.

Your cooperation during this temporary period will be appreciated.
